

## VOLUNTEERS WANTED

The Naval Submarine Medical Research Laboratory, located on Naval Submarine Base New London, Groton, CT, is currently recruiting active duty and retired submariners to participate in a research study looking at the effects of submarine duty on bone mineral density and body composition. As part of the study, you will have a free bone and body composition scan and answer questions that will provide information about your diet and exercise habits.

If you are interested, or would like more information, please contact LT Heath Gasier at (860) 694-4680 ([heath.gasier@med.navy.mil](mailto:heath.gasier@med.navy.mil)) or LT Annely Richardson at (860) 694-5220 ([annely.richardson@med.navy.mil](mailto:annely.richardson@med.navy.mil))
